**To the teacher:** Our courses follow an appropriate unit of instruction for a semester standard for the language and level. Although each class will cover the grammar necessary for students to reintegrate into their respective sending schools, we are unable to replicate any one student's entire home curriculum. You can help your student by preparing him/her to take the responsibility for keeping up with the vocabulary that you will be doing at home while he/she is at OA. It would also be beneficial for your student to bring a copy of their textbook from home.
