Spanish Course Outline

To be completed by the student and their Spanish teacher

The Outdoor Academy's Spanish courses follow an appropriate course of instruction for a standard semester at a given level. Each class will cover the grammar necessary for students to reintegrate into their respective sending schools, although we are unable to replicate any one student's entire home curriculum. You can help your student by preparing them to take the responsibility for keeping up with the vocabulary that you will be covering while they are at OA. It would also be beneficial for your student to bring a copy of their Spanish textbook to OA. Our sincerest thanks for your support!
