

Hante Nature Lore 2026 Clothing and Equipment List

Purpose and Considerations

Packing for your Hante should be done with care to ensure you have the necessary clothing and equipment for a safe and fun trip. Each item on this list has been carefully selected and is required, unless noted optional. On our adventures, we layer clothing for warmth and protection from the elements. We use synthetic fibers, such as polyester, fleece, and wool, which keep you warm when wet. You cannot wear cotton except for travel or rest days. Cotton will not keep you warm when wet, nor will it reliably dry. It is also important to consider clothing with these materials, as they tend to stay relatively clean and usable over multiple days (the ability and opportunities to wash/clean clothes will be limited).

Eagle's Nest Foundation Gear Lending Library (GLL)

Thanks to the generosity of Eagle's Nest Camp, Hante, and Outdoor Academy alumni, we have a supply of outdoor clothing and equipment to lend for your trip. If obtaining the items on this list poses a challenge for you, please reach out to Ed (ed@enf.org). We will work with you confidentially to provide as much as possible. **Please also contact us if you plan on borrowing gear listed below so that we may prepare your gear accordingly**

How to Find What You Need

1. **First, use gear you already own.** Most of the clothing and equipment you need you likely already own.
2. **Go to a thrift store or second hand outdoor gear shop!** Your local thrift store or used outdoor gear shop is a great place to buy basic items like fleece, long underwear, long sleeve shirts, and shorts. With the added benefit of not being afraid to beat it up a little!
3. **Visit your local outdoor store.** For some specific items, such as boots, it is immensely important to try things on to get the right size and fit.
4. **Shop online to find discounts.** Websites like REI Outlet, Backcountry.com, Sierra Trading Post, and Steep and Cheap, all regularly have sales or offer discounted prices.

Additional Considerations

- **Electronics:** We will be collecting all electronics on opening day. They will remain off and stored for the duration of the trip. Eagle's Nest is not responsible for any damage incurred to stored electronics. The safest and simplest option would be to limit the amount of electronics brought as much as possible.
- **Packing:** Please only pack what is on the list, space will be limited!
- **Please label.** Chances are, someone else will come with similar gear. Labeling is also helpful in the event you accidentally leave something behind at Camp.
- **Brands** are listed to provide guidance, but are not a requirement to fulfill the packing list.
- **Footwear** for the canoeing and bouldering portions of the trip are not listed below; they will be provided for you once that activity begins, unless you would prefer to bring your own.
